

Students in Mathematics Education, SSRUIC participated in International Conference
“Local & Global Sustainability: Meeting the Challenges & Sharing the Solutions”

On March 20, 2018, Kamonthip Ongartyuthanakorn with her co-author, Borwonnun Daokrajang and Sunhajutha Tirangkoor, first year students in Mathematics Education, SSRUIC participated in the 9th National and International Conference “Local & Global Sustainability: Meeting the Challenges & Sharing the Solutions” as a researcher presenting their classroom action research on “The Effects of Remedial Teaching Strategies on Undergraduate Chemistry Students’ Learning in Units of Measurement”. Due to this conference, they had a good opportunity to get to know and gain fruitful knowledge and experiences from the researchers with similar and different interests and to grow a network of researchers beyond their own university.
